DISCLAIMER 1: These maps were drawn along voting precinct lines only given the limitations of our mapping tool. This means that areas on the edges of the city may not follow the actual city limits, and some of the odd areas that stick out are due to oddly sized precincts. This is especially true in the Williamson County area.

DISCLAIMER 2: Our maps are focused on the Northwest and North portions of the map only. Other areas of the city are drawn just to ensure approximate distribution of the city across 10 districts. This should not be taken as NWAC or NACN advocating for how other areas of the city are drawn. We are primarily concerned with the Wilco district, Northwest (west of MoPac, north of the river), and North Austin (between MoPac and I-35, north of 183).
